## ABOUT ME

Motivated Computer Science student with a strong foundation in frontend development and a passion for building responsive, user-friendly web applications. Skilled in HTML, CSS, JavaScript, React.js, and Tailwind CSS. Currently learning backend technologies like Node.js, Express, and MongoDB to become a full MERN stack developer. Quick learner with strong problem-solving skills and a drive to continuously grow and contribute to impactful tech solutions.

## EDUCATION

Institute of Advanced Research and Innovation, Gandhinagar

Present

### Bachelor of Computer Science and Engineering

**Related Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Web Development, Software Engineering

**GPA:** 8.2/10

## RELEVANT EXPERIENCE

The Unified Mentor,

July 2025 - Present

### Frontend Engineer Intern

- Developed and deployed 4 responsive web projects using React.js, Tailwind CSS, and JavaScript, focusing on real-world UI/UX challenges.
- Collaborated in an agile team environment, following best practices for component-based architecture, version control (Git), and code optimization.
- Gained hands-on experience in frontend performance tuning, responsive design, and integration with APIs across multiple devices.

## PROJECTS

**Codezy** | React.js, Tailwind CSS, Framer Motion, EmailJS | [Codezy](#)

- Built a responsive tech video platform inspired by YouTube with category-based filtering, channel expansion, and modern UI using React, Tailwind CSS, and Framer Motion.
- Implemented interactive features such as Liked Videos and Watch Later, enhancing user experience through localStorage-based state management and smooth navigation.
- Strengthened front-end development skills by designing real-world layouts, integrating animations, and optimizing for both desktop and mobile experiences.

**Nexlog** | React.js, Tailwind CSS, Framer Motion, EmailJS | [Nexlog](#)

- Developed a feature-rich blog platform (NexLog) using React.js and Tailwind CSS, including functionalities like user authentication, profile editing, and image uploading.
- Implemented social features such as follow/unfollow, likes, and comments, enabling user engagement and real-time content interaction on the platform.
- Designed dynamic UI components for creating blogs, displaying trending posts, and managing user feeds optimized for responsiveness and intuitive user experience.

## SKILLS

**Languages & Programming:** C, C++, Python, JavaScript, TypeScript

**Frontend:** React.js, HTML, CSS, Tailwind CSS, Framer Motion

**Backend (Learning):** Node.js, Express.js, MongoDB

**Tools & Tech:** Git, GitHub, VS Code, Firebase, Postman, Netlify

## SOFT SKILLS

**1)** Problem-Solving

**2)** Team Collaboration

**3)** Communication

**4)** Time Management
